

After School and Out of School Activities

What opportunities are available for pupils? (Clubs, sports, day-trips, field trips, etc.)

How does what's on offer now compare with the past?

How many pupils take part, broken down into gender and ethnic groups?

How regularly do pupils participate?

Do some never take part?

If so, is cost a factor?

Are there other reasons, and what steps is the school taking to address them?

Is the school's Charging and Remissions Policy working effectively? Does it need to be reviewed?
